B - Check Additional Action Plans

Select action type as Check Additional Action Plans (B).

During a Check Additional Action Plans step, the Dispatch Wizard will check if any other points have been tripped that call action plans. If other action plans have been called, they will display in a list. The operator has the choice to continue on the action plan they are on or to switch over to a different action plan. If no other plans apply, the wizard will automatically load the next step.

No additional setup is needed for B Type Steps.

*****It is recommended that a Check Additional Action Plans step is setup before any full or partial clear.*****

Following Steps:

The wizard will automatically go to the next step. There are no choices made in the Check Additional Action Plans Step.

Log

When the B type step is complete, one of three possible Operator Actions will be logged to [History](#):

- 'AP-B' - Action Plan B type - No Other Action Plan Found
- 'AP-B-Con' - Action Plan B type - Continue Current Action Plan
- 'AP-B-New' - Action Plan B type - New Action Plan Launched
