O - Operator Action

O - Operator Action

Select action type as Operator Action (O).

During an Operator Action step, the Dispatch Wizard will, by default, log an Operator Action. The Operator Action can be forced to be confirmed by the operator by enabling the Confirm OpAct flag. Certain Operator Actions may not require operator confirmation, such as an action to record Dispatched Police after a successful call to a Police Agency. Other Operator Actions such as 'Full Clear' and 'Partial Clear' may need confirmation to enter comments.

If the step is a Full or Partial Clear, it is recommended to have a Check Additional Action Plan step before this to ensure all signals are being dispatched.

Following Steps:

The wizard will automatically go to the next step (if dispatch continues). There are no choices made in the Operator Action Step.
