

# Detailed Activity

The detailed activity report will generate a list of all targeted sites and events. If only a date range is entered, all events will be shown.

Additional check boxes allow for additional data and formatting options.

The screenshot shows a window titled "Detailed Activity" with a close button in the top right corner. The window contains the following configuration options:

- site group: [dropdown menu]
- site: [dropdown menu]
- xmit# range: [text input] - [text input]
- include operator actions:
- exclude operator action comments:
- report codes: [dropdown menu]
- start date\*: [calendar icon] [text input] time: [text input]
- end date\*: [calendar icon] [text input] time: [text input]
- one site per page:
- report group: [dropdown menu]
- combine transmitters:
- include data changes:
- exclude test signals:
- exclude oos signals:
- report option: [dropdown menu]
- file type: [dropdown menu] PDF

A document icon is located in the bottom left corner of the window.

## Output

## Detailed Activity Report
