

# Site Contact

The site contact report will generate a list of all contacts for the targeted sites. Each contact will be listed with their configuration and notification details.

The screenshot shows a window titled "Site Contacts" with a close button in the top right corner. The window contains the following configuration options:

- site group: A dropdown menu.
- site: A dropdown menu.
- start xmit#: A text input field.
- end xmit#: A text input field.
- report group: A dropdown menu.
- show pins: A checkbox.
- only contacts with phone(s): A checkbox.
- one site per page: A checkbox.
- file type: A dropdown menu with "PDF" selected.

There is a small icon of a document with lines representing text in the bottom left corner of the window.
